

FULL HEIGHT TURNSTILE AVANZ-703

AVANZ-703

Key Features

- 304 stainless steel
- Material thickness: all 1.5mm, 89 shaft thickness
- Box laser cutting processing
- Fine welding, fine grinding process
- Surface original drawing;
- Optional semi-automatic or fully automatic movement, default semi-automatic movement
- Highlight the green direction indicator board
- Power-off or power-off gate is optional, the default power-off switch

SPECIFICATION

Power Voltage	220V,50Hz
Driving Current:	≥ 10mA
Pass speed	≤35 people/min
UnlockTime	0.2 seconds
Operation condition	-25 ° C ~ +70 ° C
Magnet Voltage	24v/40w
Maximum channel width	≤650mm
Dimesnion	1500mm × 1350mm× 2260mm
Rotation Angle	120°
