

## Pro-Watch® / Iris ID Biometrics Integration

Designed to meet the challenges of today's demanding environments, Honeywell's Pro-Watch security management suite provides the flexibility, scalability and control required for comprehensive security management. Pro-Watch equips organizations with the right tools to protect people, secure assets and ensure regulatory compliance by combining access control, digital video surveillance, and intrusion detection along with other functionality into one powerful system.

Integration with Iris ID's biometric reader family allows users to add cutting edge biometric identification to their security portfolio without having to manage separate systems. Utilizing Iris ID's advanced, dual-iris capture technology, users are able to enroll and manage biometric templates within Pro-Watch providing a truly integrated and seamless experience.

Supported devices include the latest from Iris ID such as the iCAM7000 and ICU7000 series as well as legacy products such as the iCAM400, ICU4000, ROU3000 and ICU3000.
